Subject: RE: MSDS for Egg Cleaning Agents at Arlington

Sara,
Here is the amount of chemicals use annually. I'm going to break it down by location:

Arlington North Processing Plant (Shell Eggs)
FS Chlorinated Defoaming Eggwash = 77896 Lbs.
FS Formula 4665 = 655.2 gallons
XT-2002 = 520 gallons

Arlington South Processing Plant (Shell Eggs)
FS Chlorinated Defoaming Eggwash = 36,400 Lbs.
FS Formula 4665 = 655.2 gallons
XT-2002 = 520 gallons

Breaker Plant (Liquid Egg and Hard Boil Plant)
FS Chlorinated Defoaming Eggwash = 11.999 Lbs.
FS Formula 4665 = 2,639 gallons
Sanoquat 4100 = 657 gallons
Shear 201 = 3,959 gallons
Shoutgun = 1978 gallons
Acid 14 = 2,640 gallons
SB Peracetic Acid = 1976 gallons

Also, I forgot one more chemical that we use at the shell egg plants. The attachment above has a copy of the SDS.
Please let me know if you need any other information.
Thank you,

Frank G. Ruiz

Subject: MSDS for Egg Cleaning Agents at Arlington

Hi Frank,

I need the MSDS for each materials used to clean eggs at the Arlington facility. If they contain VOC or HAP, I will also need the annual amount of the materials used. Please provide this information to me by Friday, 12/4/15. Feel free to contact me if you have any questions.

Thanks for your help.

The Air Quality Department strives to provide excellent customer service to residents of Maricopa County.
